Work will be completed on a first come first serve basis. We often have individuals ask for preferential treatment and to complete their task immediately. This is not fair to people that submitted their work much sooner.

Water Deeds & Change of Place of Use have a process they need to go through.

- 1. SWUA draws up water deed/Change of place of use**
- 2. Get signatures from buyer/seller**
- 3. Approval from Canal Company**
- 4. Approval from SWUA Irrigation Committee and Board**
- 5. Bureau of Reclamation Approval**
- 6. Once those are done they will be recorded when paid for.**
